Alia,

I double checked and it looks like the species listed in the grass/ forb mixes (page 28) are all species that meet for the soils. A tiny addition I would make would be adding Blue before Grama on the 1st species. Otherwise looks fine from what myself and the Area Resource Conservationist saw.

Thanks,

Joshua Monson

Hi Josh,

I am reaching out on behalf of Harmony Storage – separate from our Harmony Solar project. Harmony Storage submitted an Application for a Certificate of Site Compatibility ("CSC") to the North Dakota Public Service Commission ("PSC") for a 200 megawatt battery energy storage system (BESS) with a four-hour duration (800 megawatt-hours [MWh]) to store excess energy (the Project).

The purpose of my outreach is to seek your input, if any on the Vegetation Management Plan. Any

comments provided will be incorporated into the PSC's review process.

Project facilities will include associated inverters, transformers, underground cables, and other ancillary facilities such as fencing, roads, stormwater facilities and a Battery Management System (BMS). The Project will connect to the Harmony Solar 230-kilovolt (kV) collector substation (see Docket No. PU-18-219) via underground 34.5 kV collection lines. The Project Area encompasses approximately 74 acres of land in Township 140N, Range 51W, Section 12 of Harmony Township in west central Cass County, North Dakota. Please let me know if you have any questions or comments as you review the VMP Plan.

Thank you,

geronimo power

Jeannie,

Thank you for reaching out.

Alia and I spoke about the need to control noxious weeds, and I believe your plan addresses that issue. I am not aware of any other requirements the department may have.

Good morning Adam,
I wanted to reach out to you to see if you had any comments regarding Harmony BESS Project: Vegetation Management Plan. Alia, from our office previously reached out to you and I just wanted to extend an email since she is out of the office for leave.

Much appreciated,
Jeannie

Hi Alia,
Thank you for sending the site plans. They seem to be very thorough. I have nothing to add to your plans. If you ever have any questions on weed management, please don't hesitate to reach out.
