PUBLIC SERVICE COMMISSION

Dear Ms. Jeffcoat-Sacco:

The Office of Attorney General has examined the proposed amendments to N.D.A.C. art. 69-06 concerning siting (Case No. PU-10-128), proposed amendments to N.D.A.C. ch. 69-09-08 concerning renewable electricity and recycled energy tracking (Case No. PU-10-129), and proposed amendments to N.D.A.C. § 69-02-01-06 concerning practice before the Commission (Case No. AD-10-167), along with the notice of the proposed rules, the publication of that notice, and the filing of that notice with the Legislative Council. This office has also determined that 1) a written record of the agency's consideration of any comments to the proposed rules was made, 2) a regulatory analysis was not issued or requested, 3) a takings assessment was not prepared, 4) a small entity regulatory analysis and an economic impact statement were not prepared because the rules are not expected to have an adverse impact on small entities or were expected to reduce costs for small entities, and 5) the proposed rules are within the agency's statutory authority.

These administrative rules are in substantial compliance with N.D.C.C. ch. 28-32 and are hereby approved as to their legality. Upon final adoption, these rules may be filed with the Legislative Council.

Sincerely,

Wayne Stenehjem
Attorney General

ORDER SUBMITTING RULES TO ATTORNEY GENERAL

September 22, 2010

Appearances

Commissioners Tony Clark, Kevin Cramer, and Brian P. Kalk

Preliminary Statement

On June 2, 2010 the North Dakota Public Service Commission (Commission) issued a formal Notice of Proposed Rulemaking and an Abbreviated Notice proposing to revise several sections to the North Dakota Administrative Code. The proposed rules are summarized as follows:

Siting - Case No. PU-10-128

Siting proposed rules incorporate a minor change relating to determining corridor size, a proposed rule concerning requests for jurisdictional determinations, and a proposed rule concerning letters of intent. The proposed amendment is not expected to have an impact on the regulated community in excess of \$50,000.

Electric: Case No. PU-10-129

The renewable electricity and recycled energy tracking proposed rule standardizes the content and format of required annual reports of electric retail providers. The proposed amendment is not expected to have an impact on the regulated community in excess of \$50,000.

Public Service Commission

Practice and Procedure: Case No. AD-10-167

The proposed amendment repeals language regarding practice before the Commission that is inconsistent with the North Dakota Admission to Practice Rules. The proposed amendment is not expected to have an impact on the regulated community in excess of \$50,000.

Public Hearing and Comments

The Abbreviated Notice was published once in 51 official county newspapers the week of June 13 through June 19, 2010. The Ashley Tribune published the Notice on June 30, 2010. The notices were also forwarded to the Legislative Council for publication at least 30 days in advance of the hearing.

A public hearing was noticed for and held at 1:30 p.m., July 14, 2010. The hearing was held in the Commission Hearing Room, 12th floor, State Capitol, Bismarck, North Dakota.

The Commission allowed, after the conclusion of the rulemaking hearing, a comment period until July 26, 2010, during which data, views, or oral arguments concerning the proposed rulemaking could be received by the Commission and made a part of the rulemaking record to be considered by the Commission.

The only written comments filed were received at the hearing and were those of Commission staff.

Discussion

Siting - Case No. PU-10-128

Staff prepared and filed a statement regarding the regulatory analysis, takings assessment, and small entity regulatory analysis.

Staff testified that the proposed changes incorporate a minor change relating to determining corridor size, a proposed rule concerning requests for jurisdictional determinations, and a proposed rule concerning letters of intent. One proposed change would clarify that the Commission can designate a smaller corridor without first receiving a request from the applicant. The rest of the proposed changes to the siting rules are intended to separate requests for jurisdictional determination from the letter of intent process.

No other comments were received and no changes are being made to the rules as originally proposed.

Electric: Case No. PU-10-129

Staff prepared and filed a statement regarding the regulatory analysis, takings assessment, and small entity regulatory analysis.

Staff testified that the proposed changes standardize the content and format of required annual reports of electric retail providers.

No other comments were received and no changes are being made to the rules as originally proposed.

Practice and Procedure: Case No. AD-10-167

Staff prepared and filed a statement regarding the regulatory analysis, takings assessment, and small entity regulatory analysis.

Staff testified that the proposed amendment repeals language regarding practice before the Commission that is inconsistent with the North Dakota Admission to Practice Rules.

No other comments were received and no changes are being made to the rules as originally proposed.

Order

The Commission orders the proposed changes to the North Dakota Administrative Code, as attached to and made a part of this order, be submitted to the Attorney General for an opinion that the rules are approved as to legality.
