

Sonal Patni, American Gas Association

Sonal Patni is a Director within the Operations and Engineering team at the American Gas Association. In this role, Sonal supports advocacy efforts related to pipeline safety and works closely with AGA members.

Prior to joining AGA, Sonal worked for Pacific Gas and Electric as part of their Regulatory Strategy team and supported their renewable natural gas strategy, Regulatory Compliance team, and supporting their Risk Assessment team. Sonal has also worked for Southwest Gas, and Southern Company's electric generation team.

Sonal holds a bachelor of Science degree in Mechanical Engineering from the University of Oklahoma.
