PSC Public Hearing for Northern Divide Wind Project and Associated Transmission Line to be Held Remotely

BISMARCK, ND – The North Dakota Public Service Commission (PSC) will hold a public hearing on Friday, April 17, regarding a proposal to construct a wind farm and associated electric transmission line in Burke County. The hearing originally scheduled to be held in Bowbells will now be held remotely to keep in compliance with directives from public health officials to not have public gatherings and in accordance with Governor Burgum’s Executive Order 2020-25.

Northern Divide Wind, LLC (a wholly-owned, indirect subsidiary of NextEra Energy Resources), has submitted an application for permits for the Northern Divide Wind Energy Center and an associated transmission line. The wind farm will have a capacity of approximately 200 megawatts and will consist of up to 76 wind turbine generators and associated facilities.

The project will also include a 41-mile long, 345-kilovolt transmission line that starts at the proposed wind farm in Burke County and extends to Basin Electric’s Tande Substation in Mountrail County. (Note to the media: A map showing the proposed location of the wind project and transmission line has been provided to you for use with any announcements/stories you print.)

Details for the public hearing are as follows:
